**Patent Pending U.S. Patent Application 64/084,252**

**Date of License Issue: 06/30/2026**

This document is divided into two parts:

**Part I begins below and** establishes the base copyright and patent terms of use.

**Part II begins on page 5 and amends** the base terms to provide an explicit,  
highly restricted commercial waiver strictly limited to the tangible betterment of

human health and global common needs, while establishing absolute prohibitions on cognitive labor displacement, direct competitive commercial use, and other competitive uses not covered within PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER.

## **PART I: GLOBAL HUMANITARIAN PROPRIETARY LICENSE BASE LICENSE**

### **Acceptance**

In order to get any license under these terms, you must agree to them as both strict obligations and conditions to all your licenses.

### **Copyright License**

The licensor grants you a copyright license for the software to do certain things you might do with the software that would otherwise infringe the licensor's copyright in and of it, for a specific permitted purpose while uncategorically and/or categorically disallowing commercial use, distribution of the software, making changes or new works based on the software, or any other commercial use of any kind not explicitly ALLOWED per the terms within the attached rider, without written permission and licensing from the DEVELOPER.

### **Patent License, Patent Rights, Trademark Rights**

By default, patent license, patent rights, trademark rights or ALL rights are reserved exclusively by the DEVELOPER, Joshua Dungan, ARTIFICIAL GENERAL INTELLIGENCE LLC. No ownership, transfer, or grant of patent rights is given whether implied or not, nor of any kind or form. Said plainly: **No patent rights or trademark rights are granted by this license.**

However, the **GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER** provides an explicit and conditional patent license. Refer to **PART II**.

### **Noncommercial and Commercial Purposes**

Many noncommercial and commercial purposes are permitted purposes per **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**, and all other noncommercial or commercial purposes are prohibited.

### **Personal Uses**

Personal use for research (e.g., citizen science), experiment, and testing for the benefit of public knowledge, personal study, private entertainment, hobby projects, amateur pursuits, or religious observance, without any anticipated commercial application, is explicitly named as desirable use, and is named a permitted purpose.

### **Noncommercial Organizations**

Use by any charitable organization, educational institution, public research organization, research consortia, public safety or health organization, environmental protection organization, or government institution is use for a permitted purpose regardless of the source of funding or obligations resulting from the funding, as defined within **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**.

## **Fair Use**

While you may have statutory "fair use" rights under intellectual property law, by using this software, you expressly agree to the strict use restrictions named in **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**, that limit use of this software, explicitly prohibiting certain uses, including but not limited to:

human-filled job displacement;

any commercial use that leads to "Race to Zero" economics within cognitive fields;

any commercial use not intended to benefit patients by improving outcomes, discovering and researching new therapeutics, or global humanitarian needs as defined within **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**.

## **No Other Rights**

These terms do not allow you to sublicense or transfer any of your licenses to anyone else, or prevent the licensor from granting licenses to anyone else. These terms do not imply any other licenses. All rights are reserved by the LICENSOR.

## **Patent Defense**

If you make any written claim that the software infringes or contributes to infringement of any patent, your patent license for the software granted under these terms ends immediately. If your company makes such a claim, your patent license ends immediately for work on behalf of your company. Refer to **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER** for important information about willful infringement.

## **Violations**

Violation of any of the terms within this license, including **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**, any and **all of your licenses granted by the Licensor for any and all licenso-**

**owned platforms shall end immediately.**

### **No Liability**

As far as the law allows, the software comes as is, without any warranty or condition, and the licensor will not be liable to you for any damages arising out of these terms or the use or nature of the software, under any kind of legal claim.

### **Definitions**

**The licensor** is the individual or entity offering these terms, and the software is the software the licensor makes available under these terms.

**You** refers to the individual or entity agreeing to these terms.

**Your company** is any legal entity, sole proprietorship, or other kind of organization that you work for, plus all organizations that have control over, are under the control of, or are under common control with that organization. Control means ownership of substantially all the assets of an entity, or the power to direct its management and policies by vote, contract, or otherwise. Control can be direct or indirect.

**Your licenses** are all the licenses granted to you for the software under terms.

**Use** means anything you do with the software requiring one of your licenses.

## **PART II: GLOBAL HUMANITARIAN PATENT LICENSE, TERMS & RESCISSION RIDER**

### **OVERRIDE AND REVOCATION OF BASE PATENT LICENSE**

The Licensor grants NO blanket patent rights for general non-commercial use. Any and all patent rights (including rights to execute the patent-pending

architecture of this Software) are granted **explicitly and conditionally** under the Humanitarian Commercial Waiver defined in Section 2 below. All other uses, whether commercial or non-commercial, that fall outside the humanitarian scope of Section 2 are granted NO patent license and constitute willful infringement.

**If there is any conflict between PART I and PART II, then PART II shall be given priority regarding implementation and interpretation.**

## **Section 1: Covered Intellectual Property**

This Rider governs related claims, embodiments, and enablements within the filed patent application(s) owned by the Licensors regarding the Invention (including, **but not limited to:** *Veridical AI Enforcement*<sup>TM</sup>, *Gating Semantic Drift*<sup>TM</sup>, *Pentamatrix Hypothesis Tension*<sup>TM</sup>, *Toggled Memory Management Modularization*<sup>TM</sup>, *Truth Serum for AI*<sup>TM</sup> and *Universal AI Workbench*<sup>TM</sup> Framework), as demonstrably embodied in this plain-code software. All embodiments named herein or named therein as well as the exemplary workbenches made by or with "PathMap<sup>TM</sup>" technology.

**Nothing in this license or Rider shall be construed to limit, restrict, or waive the Licensors' sole and exclusive right to license, sell, exploit, or otherwise commercialize the Software, its outputs, or the underlying Invention under separate, proprietary terms.**

## **Section 2: The Humanitarian Commercial Waiver (Allowed Uses)**

**Notwithstanding the commercial prohibitions of Part I, the Licensors hereby grants a worldwide, royalty-free, non-exclusive patent and copyright license to execute, modify, and study this Software for the tangible betterment of patient care and common human needs.**

Under this specific humanitarian exemption, Licensees (**including citizen scientists**, academic students, academia, researchers, non-profit foundations, research consortia, government entities, and military entities) **ARE EXPRESSLY PERMITTED to commercialize, patent, publish, or profit from their own downstream discoveries synthesized using this software, provided that use was within and remains within the terms of this license, and having not**

**invalidated this license by misuse or violation otherwise.**

**To qualify for this exemption, individuals and citizen scientists must act in a strictly personal or academic capacity, and may not operate as proxies, agents, or shadow-funded conduits for for-profit corporate entities seeking to bypass Commercial Enterprise Licensing.**

**Provided this condition is met, the fundamental application of the discovery made using this software must be to diagnose, treat, or cure human disease, or directly address universal common needs including, but not limited to, water purification, green environmental remediation, climate or pollution solutions, and agricultural supply chain enhancements in order to be covered and protected by this license.**

Permitted commercialized discoveries protected by this license are strictly limited to physical, chemical, biological, or physiological therapeutic compositions, diagnostic targets, **material solutions**, and explicitly exclude any software, software-as-a-service (SaaS), custom code, API wrappers, or conversational interfaces built using or derived from the Software.

**NO LICENSE OF ANY KIND IS GRANTED FOR ANY MALICIOUS USE OF THIS SOFTWARE OF ANY KIND. THE DEVELOPER/LICENSOR WILL ASSIST VERIFIED LAW ENFORCEMENT WITH ANY CRIMINAL INVESTIGATION RISING FROM ILLEGAL USES OF THIS SOFTWARE, TO THE GREATEST EXTENT POSSIBLE OR FEASIBLE.**

### **Section 3: The "Race to Zero" Prohibition (Strictly Banned Uses)**

While Licensees may profit from the *downstream discoveries they make*, they are absolutely prohibited from monetizing the *Software or its outputs*, its execution, or its generalized cognitive automation capabilities, or any other element of the software. The following activities are expressly banned and fall entirely outside the scope of this license:

- **a) Prohibition on Operational Monetization:** Licensees may not charge fees of any kind for the operation of this Software. This includes, but is not

limited to: freelancing, independent contracting, operating an "AI consulting agency," or charging clients for knowledge-synthesis or research labor performed by this Software.

- **b) Prohibition on Public Hosting and Software-as-a-Service (SaaS):** The Software is licensed strictly for local, private, or internal organizational execution. You may not host, wrap, deploy, or otherwise make the Software, its interface, its API outputs, or any immediate or summarized text, data, or downstream insights generated by the Software available over the internet, a public network, or as a client-facing web application to third parties—regardless of whether such access is free, non-profit, or commercial. The absolute and explicit right to publicly host or provide public web-based access to the Software in any manner is retained solely by the Licensor. Other licenses may include hosting options, however **this license prohibits publicly posting or sharing of the software**. Private, non-public, non-commercialized sharing may be allowed, so long as all other terms of this license are maintained.
- **c) Anti-Displacement Ban:** The Software may not be utilized to **automate, replace, or systematically displace human labor within any workflow (whether commercial, medical, academic, or administrative)**—including but not limited to medical transcription, scientific literature drafting, creative writing, legal analysis, educational grading, or general administrative cognitive labor. **A qualified human professional must remain actively in-the-loop during operation**; the Software must serve strictly as a productivity multiplier, research accelerator, verbatim quote extractor, dataset generator, ai research agent with human-in-the-loop methods, and not as an autonomous human substitute or a mechanism for workforce reduction.
- **d) Competitive Guises and Conversational Agents:** No Licensee may rebrand, repackage, or wrap the Software, its underlying algorithms (including Gated Semantic Drift or Veridical AI Enforcement), its API outputs, or its reasoning engines into any commercial AI products, client-facing software, virtual assistants, conversational agents, or chatbots (whether patient-facing, research-facing, or otherwise), even if such deployment is claimed to improve patient outcomes or operate under the guise of "humanitarian betterment." All such software deployments require a separate, written Commercial Enterprise License from the Licensor.
- **e) Anti-Distillation and AI Training Ban:** Licensees are strictly prohibited from using the Software, its logic gates, its veridical traces, or any of its

generated outputs (collectively, "Software Outputs") as training data, fine-tuning data, reinforcement learning data, or prompt-engineering data to develop, train, or improve any other artificial intelligence model, large language model (LLM), or machine learning algorithm. Exception: This prohibition shall NOT apply to non-commercial, academic, or humanitarian machine learning research (such as training open-source graph neural networks, molecular binding predictors, or protein-folding models) directly and explicitly aimed at diagnosing, treating, or curing human disease or addressing global common needs (as defined in Section 2). Any commercialization, sale, or licensing of AI models trained under this exception requires a prior, fully executed Commercial Enterprise License from the Licensor.

- **f) Attribution, Watermarking, and Notice Lock:** Under all circumstances and without exception, any "Made with PathMap," "Powered by PathMap," or "PathMap Studio" copyright notices, watermarks, metadata headers, and license terms embedded within the Software's source code, user interface, generated PDFs, printed outputs, or analytical reports must remain entirely intact, visible, and unaltered. Licensees are strictly prohibited from removing, obfuscating, stripping, or modifying these notices. This mandatory attribution serves as the Licensee's necessary legal verification (their "shield") that the underlying output was generated legitimately under the protective terms of this Humanitarian Exemption.
- **g) AUTOMATION OF THIS IS PROHIBITED USE:** As stated in Section 3 c), a human-in-the-loop use of this software is permitted. However, automation of this software of any kind is prohibited, including but not limited to, airgapped autonomous research agents, autonomous decision makers, autonomous execution of the software, autonomous publishing of outputs generated by the software.

## **Section 4: The Global Poison Pill (Automatic Revocation)**

The licenses granted under Part I and Part II of this agreement shall terminate automatically, instantly, and retroactively and *ab initio* to the maximum extent permitted by law for any Licensee (including its corporate parent, subsidiaries, affiliates, or agents acting on its behalf) that:

- a) Violates any provision of Section 3 of this Rider; or

b) Institutes patent litigation against the Licensor, or attempts to file a patent application or intellectual property claim encompassing the Software's underlying AI architecture (including, **but not limited to:** *Veridical AI Enforcement™*, *Gating Semantic Drift™*, *Pentamatrix Hypothesis Tension™*, *Toggled Memory Management Modularization™*, *Truth Serum for AI™* and *Universal AI Workbench™ Framework*), without explicit, prior written permission from the Licensor.

**Note: Patenting a downstream discovery that is allowed within the terms of this license (e.g., a biological, chemical, or medical drug target discovered using the software) does not trigger this clause so long as the use is for the purpose described within Section 2, and also fully in accordance with the terms of this license.**

## **Section 5: Willful Infringement & Disgorgement of Revenues**

By downloading, modifying, or executing this Software, you acknowledge actual notice of the Licensor's pending patent rights. If your license is revoked under for violation of this license and/or its terms or for any other reason, your continued use of this technology constitutes unauthorized, willful infringement.

In the event of a conflict between this Section and any "No Liability" or "Limitation of Liability" provisions in Part I or Part II, this Section shall control strictly regarding Licensee breaches.

In the event a Licensee breaches Section 3 (including, but not limited to, utilizing the Software for operational monetization, consulting fees, or SaaS deployment), the Licensee stipulates and agrees that actual damages flowing from such breach would be difficult or impossible to estimate accurately. Therefore, the Licensee contractually agrees to pay, as agreed liquidated damages and not as a penalty, an amount equal to one hundred percent (100%) of all gross revenues generated directly or indirectly from the unauthorized commercial use, or a flat fee of fifty thousand dollars (\$50,000) per calendar month of unauthorized use, whichever is greater.

The Licensee further agrees to bear total liability for all associated legal, forensic,

and auditing fees incurred by the Licensor in enforcing this breach, alongside the Licensor's right to seek treble damages for willful patent infringement under 35 U.S.C. § 284 upon patent issuance.

The parties acknowledge that the remedies in this Section are necessary, non-optional, and proportionate to enforce essential ethical standards regarding fair use and to prevent the systemic eradication of human-filled jobs by means of use of the software. If a court of competent jurisdiction finds this disgorgement framework, or any other element of this license, to be invalid or unenforceable, such provision shall be modified to the minimum extent necessary to make it valid, and all remaining provisions of this agreement shall remain enforceable to the fullest extent of the law. There shall be no loophole exceptions created by grammatical or structural ambiguities or other errors within this license; the parties explicitly agree that **any unclear elements or ambiguities shall be construed and interpreted in favor of the Licensor to the fullest extent allowed by law.**

**The terms of licensing may vary between products, over time, etc. The license version of each license is stated clearly and with versioning at the top of the license. This license applies to the specific software named in the header along with the license version and other meta-information.**

**Governing Law, Jurisdiction, and Arbitration:** This agreement, and any dispute, controversy, or claim arising out of or relating to the Software, its deployment, or these terms, shall be governed by and construed in accordance with the laws of the State of Michigan, without regard to its conflict of law principles. Any legal action, suit, proceeding, or binding arbitration arising under this agreement shall be brought exclusively in the state or federal courts located in Grand Rapids, Michigan (or the Western District of Michigan). The Licensee irrevocably submits to the personal jurisdiction of such courts and waives any objection based on an inconvenient forum.

## **Section 6: Final Warning Regarding Societal Harm and Federal Anti-Terrorism Statutes**

Because the Software possesses advanced biological, clinical, and systemic cognitive synthesis capabilities, it constitutes a dual-use technology. Unauthorized

use of this Software to maliciously invert, synthesize, or optimize data for the purpose of engineering pathogens, toxins, or inflicting mass societal harm—whether through intimidation, coercion, or death—is strictly prohibited and constitutes a severe violation of United States federal law.

**By executing this Software, you acknowledge the actual notice that the weaponization of this technology subjects the offending user to immediate federal prosecution.** Specifically, such malicious deployment may constitute a violation of the following provisions of the United States Code, which are quoted herein:

### **18 U.S.C. § 175(a) – Prohibitions with respect to biological weapons**

"In General.—

Whoever knowingly develops, produces, stockpiles, transfers, acquires, retains, or possesses any biological agent, toxin, or delivery system for use as a weapon, or knowingly assists a foreign state or any organization to do so, or attempts, threatens, or conspires to do the same, shall be fined under this title or imprisoned for life or any term of years, or both. There is extraterritorial Federal jurisdiction over an offense under this section committed by or against a national of the United States. ..."

### **18 U.S. Code § 2332a - Use of weapons of mass destruction**

"(a) Offense against a national of the United States or within the United States.--A person who, without lawful authority, uses, threatens, or attempts or conspires to use, a weapon of mass destruction-- ..."

### **18 U.S. Code § 2331**

"§2331. Definitions

As used in this chapter-

(1) the term "international terrorism" means activities that-

## **18 USC 1030: Fraud and related activity in connection with computers**

§1030. Fraud and related activity in connection with computers

(a) Whoever-

(1) knowingly accesses a computer without authorization or exceeds authorized access, and by means of such conduct obtains information that has been determined by the United States Government pursuant to an Executive order or statute to require protection against unauthorized disclosure for reasons of national defense or foreign relations, or any restricted data, as defined in paragraph y. of section 11 of the Atomic Energy Act of 1954, with the intent or reason to believe that such information so obtained is to be used to the injury of the United States, or to the advantage of any foreign nation;

**THIS SOFTWARE DOES NOT CONTAIN RESTRICTED DATA OF ANY KIND. THIS SOFTWARE IS A PATENT PENDING GATEWAY FOR SEMANTIC DRIFT AND VERIDICAL RESEARCH ASSISTANT ENGINE THAT UTILIZES PUBLIC DATASETS AND ENABLES ACCELERATED VERIDICAL RESEARCH, COMPATIBLE ACROSS A VAST ARRAY OF AI ARCHITECTURES, PRESENTED WITHIN A SELF-TRANSLATING INTERFACE.**

**The Licensor maintains a zero-tolerance policy for societal harm. Any such attempt, conspiracy, or material support of such acts utilizing this Software will result in the immediate forfeiture of all licenses, mandatory reporting, and full cooperation with federal, international, and military law enforcement agencies.**

## **Section 7: ABSOLUTE DISCLAIMER OF WARRANTY & LIMITATION OF LIABILITY**

- **"AS IS" AND "AS AVAILABLE" STATUS:** THE SOFTWARE, USER INTERFACES, DATA PIPELINES, AND ALL ASSOCIATED SERVICES ARE PROVIDED ENTIRELY ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITH ALL FAULTS, ERRORS, DEFECTS, AND IMPERFECTIONS.
- **ABSOLUTE DISCLAIMER OF WARRANTIES:** TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ARTIFICIAL GENERAL INTELLIGENCE LLC AND JOSHUA DUNGAN (COLLECTIVELY, "THE LICENSOR") EXPRESSLY DISCLAIM ALL WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE.
